O			Tree of Heaven	Ailanthus Altissima
P			Callery Pear Tree	Pyrus Calleryana

* This list of trees includes the most common trees in Jersey City, however, many more species can be found.

LETTER	TREE	LEAVES	NAME	SCIENTIFIC NAME
M			Eastern Redbud	Cercis Canadensis
N			Crabapple	Malus Malus

LETTER	TREE	LEAVES	NAME	SCIENTIFIC NAME
G			Linden	Tilia
H			Ash	Fraxinus

* This list of trees includes the most common trees in Jersey City, however, many more species can be found.

LETTER	TREE	LEAVES	NAME	SCIENTIFIC NAME
I			Ginkgo	Ginkgo Biloba
J			Zelkova	Zelkova Serrata

*   This list of trees includes the most common trees in Jersey City, however, many more species can be found.

LETTER	TREE	LEAVES	NAME	SCIENTIFIC NAME
K			Elm	Ulmus
L			Japanese Sophora	Sophora Japonica

PRINTING INSTRUCTIONS:

This document is meant to be printed double-sided.

(Windows) Print double-sided in Acrobat, Reader 10 or earlier

1. In Acrobat or Reader, choose File > Print. (8.5x11 standard page size, choose horizontal page orientation)
2. Click Properties.
3. Click the Layout tab. This dialog varies printer to printer. ...
4. Make a selection from the Print On Both Sides pane. ...
5. Click OK, and then click OK again to print.

Once your document is printed double-sided

1. Cut each page along all four outer edges (there are print mark to guide you)
2. Once all pages are cut, gather the pages in order.
3. Then fold the pages in half to create a booklet.
4. Once folded, you can staple the folded middle area so the booklet doesn't come apart.
5. Enjoy your leaf guide!
